

FUNCTIONAL BEHAVIOR ASSESSMENT

Teacher: _____

Subject: _____

Student's Name: _____

Date: _____

1. What specific behaviors occur in school that interfere most with this student's learning/social behavior?

List in order of importance, describing observable behaviors in factual terms (e.g. rather than "aggressive," write "hits" or "bites.")

- A. _____
- B. _____
- C. _____

2. When are these behaviors most likely to occur? (time, situation, etc.)

3. What does the student appear to gain from these behaviors? avoidance of certain tasks? attention?

4. What are the student's strengths (social, personal, academic)?

5. What are the student's weaknesses (social, personal, academic)?

6. Describe specific interventions used thus far? How successful?

7. What are the student's favorite things to do? (potential reinforcers)

8. What reinforcers do NOT appear effective for this student?
